WELCOME TO MUNICH

Since 1989, scholars from around the world are gathering biennially for the interdisciplinary conference "Lessons & Legacies of the Holocaust" to present their work and discuss new research trends and fresh pedagogical approaches to the history and memory of the Holocaust. This year, for the first time ever, a special Lessons & Legacies Conference takes place in Europe. The close proximity to historical sites and authentic places of Nazi rule and terror provides a unique opportunity not only to address the reverberations of the past in the present, but also to critically reflect upon the challenges for research and education posed by today's growing nationalism and right-wing populism.

What is more, our rich conference program includes a rare chance to visit relevant memorial sites, documentations centers, museums, and archives in the vicinity. We are especially pleased to collaborate with the Jewish Community of Munich and Upper Bavaria to introduce conference delegates to a vibrant Jewish communal life in the heart of the city and the region.

We are looking forward to a productive and most fruitful conference that will stimulate debate and foster a lasting scholarly exchange among a large community of experts working in the field of Holocaust Studies.

The Organization Committee:

Frank Bajohr, Hana Kubátová, Andrea Löw, Kim Wünschmann,
